Experience

Jai Hasti Infra LLP

Digital Transformation Lead

Jaipur, Rajasthan, India

July 2026 - Present

- **Lead digital transformation initiatives** for Jai Hasti Infra LLP, supporting VC Ventures LLP and Majestic Basmati Rice Pvt. Ltd. across operational applications, workflows, controls, and reporting.
- **Built a role-based facility operations web application** covering scheduled work, service requests, meter readings, approvals, dashboards, activity history, and administrator controls, with responsive and offline-safe field workflows.
- **Designed and deployed an AppSheet operations system** with 10 connected tables, role-based access, recurring task schedules, reminders, notifications, workflow gates, and testing checks.
- **Produced an 80-page implementation and handover manual** covering data structure, permissions, formulas, actions, automations, testing, deployment, and troubleshooting.
- **Developed delegation and status-tracking workflows** and assessed AI-assisted CCTV use cases to improve operational visibility and follow-through.

RC Plasto

Intern

Nagpur, Maharashtra, India

May 2023 – July 2023

- Analyzed operations across production, logistics, and sales departments, delivering a comprehensive report that identified **3 key areas for potential process improvement**.

Ramsnehi Hospital Blood Bank

Event Volunteer

Bhilwara, Rajasthan, India

December 2022

- Managed the check-in process for blood donors, ensuring a welcoming and informed experience.
- Coordinated donor flow and provided directions to ensure a smooth and efficient event.
- Oversaw donors in the post-donation refreshment area, monitoring adverse reactions.
- Assisted with administrative tasks, including organizing paperwork and preparing donor materials.

Projects

Bougainvillea Nursery Website

July 2026

- **Designed and built a mobile-first website** for a Jaipur plant nursery, with a structured product catalogue and separate enquiry journeys for local retail customers and pan-India wholesale buyers.
- **Created responsive desktop and mobile layouts** with clear navigation, product-led sections, trust content, and direct contact actions.

Final Research Project: FC Barcelona Ticket Price Prediction

December 2023 – April 2024

- Engineered a predictive machine learning model in Python to forecast FC Barcelona ticket prices, achieving an **85% accuracy rate** against historical match data.

US Debt Tracker – Excel Analytics Project

November 2025

- Built an interactive Excel dashboard to track and visualize U.S. national debt trends using **pivot tables, slicers, and dynamic charts**.
- Cleaned, structured, and transformed multi-year fiscal data to analyze **debt growth patterns** and key economic indicators.
- Delivered insights on **year-over-year changes**, debt composition, and long-term financial trends through automated visual reporting.

World Life Expectancy & US Household Income Data Analysis

June 2025

- Executed data cleaning and EDA on two large datasets using **MySQL**, identifying and visualizing key correlations between income, geography, and life expectancy.

Entrepreneurship Development Project

May 2023 – July 2023

- Authored a complete business plan for a vegan ice cream startup, including **5-year financial projections**, market analysis, and go-to-market strategy.

Industry Review Project

January 2023 – March 2023

- Analyzed and presented a report on the healthcare industry's financial sector, evaluating market trends and the performance of **10+ leading public companies**.
