

MADHUR MAHESHWARI

DIGITAL TRANSFORMATION | WEB & APP DEVELOPMENT | DATA ANALYTICS

Jaipur, Rajasthan, India | +91 63670 36294 | [Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Digital Transformation Lead who builds practical internal applications, AppSheet operations systems, business websites, automated workflows, dashboards, and analytical models. Combines process design with Python, SQL, modern web development, and business analysis to move projects from requirements through testing, deployment, and handover.

PROFESSIONAL EXPERIENCE

Jai Hasti Infra LLP

Jul 2026 - Present

Digital Transformation Lead | Jaipur, India | Supporting VC Ventures LLP and Majestic Basmati Rice Pvt. Ltd.

- Own digital transformation work across operations, translating business requirements into internal applications, data workflows, controls, and management reporting.
- Built a role-based web application for facility operations covering scheduled work, service requests, meter readings, approvals, dashboards, activity history, and administrator controls; designed responsive and offline-safe workflows for field use.
- Designed and deployed an AppSheet operations system with 10 connected tables, role-based access, recurring task schedules, reminders, notifications, workflow gates, and testing checks.
- Produced an 80-page implementation and handover manual covering data structure, permissions, formulas, actions, automations, testing, deployment, and troubleshooting.
- Developed delegation and status-tracking workflows and assessed AI-assisted CCTV use cases to improve operational visibility and follow-through.

RC Plasto

May 2023 - Jul 2023

Summer Intern | Nagpur, India

- Reviewed production, logistics, and sales operations and presented a structured report identifying three practical opportunities for process improvement.

EDUCATION

EU Business School, Barcelona, Spain

Dissertation completed Jun 2026

Master's in Business Analytics and Data Science | Coursework completed Dec 2025

Christ University, Bengaluru, India

Jul 2021 - Jun 2024

Bachelor of Business Administration - Data Analytics Specialization

PROJECTS

Bougainvillea Nursery Website

Responsive web design and development

- Built a mobile-first website for a Jaipur plant nursery, with a structured product catalogue and separate enquiry journeys for local retail customers and pan-India wholesale buyers.
- Created clear navigation, product-led page sections, trust content, and contact actions designed for buyers who may not be technically experienced.

Premium Property Website

Responsive web design and development

- Designed and built a polished property website with visual storytelling, amenity-led content, enquiry paths, and responsive layouts across desktop and mobile.

Facility Operations Web Application

Jai Hasti Infra LLP

React | Next.js | TypeScript | Role-based workflows | Work project

- Designed separate staff and administrator experiences for scheduled work, requests, meter readings, approvals, dashboards, activity history, and configuration.
- Built responsive desktop and mobile layouts, validation, status-based workflows, and offline-safe field interactions for day-to-day operational use.

AppSheet Maintenance and Operations System

Jai Hasti Infra LLP

AppSheet | Workflow automation | Access controls | Work project

- Structured a 10-table operational data model and configured role-aware views, schedules, task generation, reminders, notifications, actions, and workflow gates.
- Created regression checks and an 80-page implementation manual so the system could be tested, deployed, maintained, and handed over consistently.

FC Barcelona Ticket Price Prediction

Dec 2023 - Apr 2024

Python | Machine learning | Data preparation

- Engineered a predictive model using historical match data to forecast ticket prices and evaluated model performance against held-out observations; achieved 85% accuracy in the academic project evaluation.

US Debt Tracker Dashboard

Nov 2025

Microsoft Excel | Pivot tables | Slicers | Dynamic charts

- Cleaned and structured multi-year fiscal data, then built an interactive dashboard showing debt growth, year-over-year change, composition, and long-term trends.

World Life Expectancy and US Household Income Analysis

Jun 2025

MySQL | Data cleaning | Exploratory data analysis

- Cleaned and analysed two large public datasets to examine relationships among income, geography, and life expectancy, with reusable SQL scripts for validation and exploration.

TECHNICAL SKILLS

Application and web development: AppSheet, JavaScript, TypeScript, React, Next.js, Node.js, responsive design, Git, GitHub

Data and analytics: Python, SQL, MySQL, R, Microsoft Excel, Power BI, Tableau, data cleaning, EDA, dashboarding, machine learning evaluation

Automation and delivery: workflow design, role-based access, process mapping, requirements analysis, testing, documentation, deployment, generative AI tools

Languages: English (IELTS 8.0/9.0), Hindi, Spanish (A2)

CERTIFICATIONS AND LEADERSHIP

Certifications: MySQL for Data Analytics; Excel for Data Analytics; Analyzing Football Using Video; Introduction to Football Analytics; Leadership and Team Effectiveness.

Leadership: Logistics Head, MirAi Data Analytics Club (2023-2024); Inventory Head, ESPIRIT 2022; school football captain (2016-2019); first-place street theatre team lead, Blossoms 2023.
